

Asbestos Awareness Training

Who should attend?

It is a legal requirement that anyone you may come into contact with or may disturb asbestos during the course of their work, and/or anyone who supervises such people, must receive appropriate Asbestos Awareness Training.

Typical people who need this training are the trades....electricians, joiners, plumbers, installations, maintenance staff and their supervisors etc.

Course aims

To understand the risks of asbestos exposure including the increased risk for smokers and to be better able to recognise different types of asbestos containing material (ACM).....so that they can avoid them! To have an understanding of the key regulations that apply to them as an individual or as a company. To know what to do if they suspect or have disturbed asbestos.

The training

It is a half day (4hr) presentation that does more than what is required by the regulations; it provides a more fuller picture of the asbestos situation that the UK finds itself in today.

Itinerary

- Video “Mesothelioma - the human face of an asbestos epidemic”
- What is Asbestos?
- Health effects (inc Macmillan video (Oncologist))
- HSE Video “How are you Today?”
- Photo’s of typical asbestos containing materials (ACM’s)
- Typical locations of ACM’s within buildings
- Control of Asbestos Regulations 2012 Reg’s 4, 5, 6, 7
- Types & limitations of Asbestos Survey
- Pre-works checks
- What to do if you suspect/disturb Asbestos
- Question & answer session; sources of further information
- Certificate of attendance with a review date of 2 years

The training can include details of your organisation's policies and procedures and can be tailored to meet your requirements.

Refresher training required; the certificates have a review date of 2 years – your H&S Manager should provide a tool box talk using our handouts to refresh the subject at least 1 year after training - after 2 years certified refresher training should be provided. Please note that some contractors/councils etc insist on certified training annually.

IATP JB Asbestos Management Ltd is part of the Independent Asbestos Training Providers which ensures that the training provided complies fully with the Control of Asbestos Regulations 2012, by annual external audit. As an asbestos management company we can provide the “full picture” and answer all of your queries on the day.
